

# Team Mahogany Weekly Status Report

## *Week of 11/6/17 (1)*

---

### Team

- Elyse Cooper, Kevin Dorosh, Ryan Stocking, Richard Preston

### This Week

- Abbreviated week due to Holiday
- Kevin and Richard met with Prof. Guyer for project check-in and feedback on project proposal
- Background research for annotated bibliography
- Prepare new competency proficiency demo

### Next Week

- Meet with Prof. Lasser for feedback on project proposal and annotated bibliographies
- Prepare clips and images for video

# Team Mahogany Weekly Status Report

## *Week of 11/6/17 (2)*

---

### Long Term

- Develop protocol for reporting radiation and GPS data
- Get proof-of-concept radiation and GPS circuit working
- Decide on direction for UI, and start investigating capability

### Critical Obstacles

- In attempting to develop our design specification, we are confused on the expectations and not sure what areas to focus on. We need to ask clarifying questions in our meeting with Prof. Lasser

### Risks/Contingencies

- This time of the semester, all team members are at risk of unexpectedly running out of time in the week to complete all required tasks. We need to get as much work during the weekends as possible to minimize this risk.
