- Update design spec
- Begin build phase

Team Mahogany Weekly Status Report

Week of 1/22/17 (2)

Long Term

- Get into a weekly routine to make steady progress before warm weather and finals/projects take over
- More clearly nail down design so there is no ambiguity going into the final stages

Critical Obstacles

- We are beginning this semester behind our original goals/timeline, so we will have to work harder to catch up

Risks/Contingencies

- We are at risk of staying at the team's state at the end of last semester, which was somewhat lukewarm. To avoid this, we are scheduling weekly meetings to keep everyone engaged.
