Team Mahogany Weekly Status Report
Week of 12/11/17 (2)

Long Term/Second Semester Plan

◦ Testing and improving the design

◦ Re-plan milestones with knowledge of what was accomplished this semester

Critical Obstacles

◦ Finals week has challenged us to make progress on anything but the presentation materials this week

Risks/Contingencies

◦ Given the amount of time needed to understand the problem and architect the solution, we need to be careful scoping the rest of the project and creating realistic deadlines
