Team Mahogany Weekly Status Report
Week of 10/16/17 (1)

Team
- Elyse Cooper, Kevin Dorosh, Ryan Stocking, Richard Preston

This Week
- Met with Professor Lasser to touch base on new understanding of project
- Set up a meeting with Professor Panetta, the project sponsor, to clarify on some scope related issues
- Worked to finalize a system engineering presentation

Next Week Task List
- Develop a Script and Storyboard for the semester video
- Contemplate the risks associated with the project and document them
- Establish an understanding for the Project plan for the subsequent week
- Attend a meeting with the writing tutors to discuss project plan (contingent on previous task)

Team Mahogany Weekly Status Report
Week of 10/16/17 (2)

Long Term
- ◦ Develop timeline for the year
- ◦ Get proof-of-concept radiation and GPS circuit working

Critical Obstacles
- ◦ The project is being slowed by the shifting understanding that we have regarding the scope of our project and its true intended use case

Risks/Contingencies
- ◦ With different people pulling the project in different directions (stakeholders, advisor, and professor), we are at risk of our scope creeping beyond our capacity
- ◦ We need to more effectively document what our project is and what it is not
